MICHAEL ARAM

2019 | VOLUME 2

MICHAEL

Michael Aram is an award-winning American artist who has dedicated his career to craft-based design. Inspired by a trip to India at age 25, he established a second home and studio there, where he continues to draw creative inspiration today.

Trained as a painter, sculptor, and art historian, Michael has neatly applied his diverse background to the decorative arts. Lyrical and often witty, his work encompasses a wide range of media and reveals a rich and variant source of inspiration—nature, mythology, narrative storytelling, and purified form. Michael's work is also a celebration of craft and age-old hand working traditions. It is the enduring fusion of these ideals—originality, narrative, and craftsmanship—that has become the hallmark of this gifted artist.

"There is a tremendous reflection of our own humanity in handmade objects. When you make things by hand, somehow that energy, that tension, that passion, all gets absorbed into the object. Objects are powerful. They trace history, trace our passage through time, they capture memories for generations."

MAKING

A deep love for the handmade process is at the core of everything Michael makes. Fascinated with the richness of the living crafts tradition which he discovered on his first trip to Delhi, Michael would seek out craftsmen in the old city by listening for the sound of metal being beaten and by searching for the aroma of baked molasses, a signal of the sand casting process. The artisans he encountered were making ordinary objects such as buckets, shovels, and scissors, but for Michael, their traditional techniques were extraordinary. Michael spent hours observing artisans as they made things the same way families had made them for centuries. Touched by the talent and humility of these gifted artisans, Michael set up a studio in India where he has created his work for over 30 years. Today, over 200 artisans work alongside him in his workshop where the same creative interaction between artist and artisan remains the source of every object that Michael makes.

MOTIF

Michael is highly inspired by his surroundings and often makes sculptures of objects that might otherwise be overlooked in the everyday. Nature is his biggest muse, as is the handmade process. His work combines the imperfections innate in the handmade process with the perfectly imperfect beauty of nature to create objects that reflect humanity. Many of his pieces are ingrained with a rich storyline, inherent symbolism, and deep-rooted meaning. Sometimes his work is simply an exploration and celebration of the handmade process.

30 YEARS OF TRADITION

2019 marks the 30th anniversary of Michael Aram's founding. To commemorate this important milestone, Michael is pleased to share his life's work and personal journey.

Dear Friends,

This year is a milestone as it marks 30 years since I took what would become a life-altering journey. It was a trip which would impact me both personally and creatively.

In 1989, I left the life I knew as a young artist living in New York City and packed my bags for India to set up a second home and workshop. There I discovered traditional metalworkers forging everyday objects in the most extraordinary way. Humbled by their talents, I observed their processes and techniques and began to work alongside them. My thought was to create functional objects with decorative and artistic design.

I was drawn to working in metal since I loved the ability to forever capture spontaneous gestures through the casting process. For me, there is energy and nobility to sculpting and casting metal, a feeling only achieved when making things by hand. To this day, I remain in awe of the skill and dignified humility with which these craftsmen approach their work. The pieces we make together reflect that energy and collaboration between artist and artisan.

To mark this important milestone, I am happy to reintroduce archival pieces 'Cat & Mouse Cheese Board' and 'Dove Canisters'. These pieces mark pivotal and memorable moments that defined me as an artist and the company as a brand. My inspiration comes from within, but nature, in both realistic and more interpretive forms, is my biggest muse.

I hope you enjoy these pieces as much as I have enjoyed making them.

CALLA LILY MIDNIGHT

COLLECTION

The Calla Lily Midnight Collection is inspired by the beauty of the Calla Lily flower. The architectural, curving shape of the flower is strong, yet suggests innocence and purity. The motif is inspired by the wedding bouquet as seen in Michael Aram's mother's wedding picture. In the Calla Lily Midnight collection, the flowers are deep purple and gold, representing creativity, wisdom, dignity, power, and luxury.

"The dark, midnight color of the Calla Lily flower reminds me of how truly mysterious nature can be. It has a magical feeling that only darkness can create. The purplish black color I achieved is a combination of the calmest of blues with the fiercest energetic red I could find."

THORN

COLLECTION

The Thorn Collection is inspired by the stem of a rose. Strikingly elegant, but treacherous to the touch, a rose thorn is symbolic of both passion and protection. As the pernicious thorns protect the delicate beauty of the bloom, we are reminded that everything beautiful, however determined, needs safeguarding.

“For me, these ‘Thorn’ pieces feel seductive and dangerous, while at the same time exude so much charm with a sense of fantasy. I love representing natural forms in my work which are often ignored or discarded.”

IVY & OAK

COLLECTION

The Ivy & Oak Collection is inspired by the picturesque hamlet built for Marie Antoinette at the palace of Versailles. The collection reflects the beauty of nature and the love of a country existence—or at least how the royal palace architects romanticized it at the whim of a young queen. The simple shape of each piece is inspired by the bucket Marie Antoinette carried as she pretended to be a milkmaid at her village refuge.

"I wanted to capture the balance between palace and country life in this collection. The delicate, winding cast ivy wraps around faux-bois etched metal elements, offering a romanticized interpretation of a simple life on the farm."

BUTTERFLY GINKGO

COLLECTION

The Butterfly Ginkgo Collection celebrates the representation of flora as fauna. Michael's fascination with a particular type of ginkgo tree, the ginkgo Biloba, or "Butterfly ginkgo", which grows with a double leaf reminiscent of a butterfly's wings, gave rise to a fantasia image of the plant. Executed at the highest level of handcraftsmanship, each piece is rendered in solid bronze with acid etched cocoon-shaped vessels. The pieces in the collection are a tour de force of Indian craft and capture the poetic spirit that is so deeply indicative of Michael's work.

"The first time I saw this tree, it literally looked like it had been completely overtaken by butterflies...as if they would all take flight the moment I walked too close or made a noise. The idea that the leaves could evoke the beauty of butterflies was magical to me, like trees that can metamorphose from flora to fauna in the blink of an eye."

WISTERIA GOLD

COLLECTION

The Wisteria Gold collection is inspired by the beauty of twisted and curving vines. Vines have been a favorite motif of Aram's over the years, since he sees them as a symbol of love and togetherness. As they grow, they loop together and separate, accommodating and allowing for whatever falls in their path. The gracefully intertwine while maintaining their own individuality.

"I think of vines as a symbol of love when I see how they grow together, with grace, strength, and vitality."
